DETAILED ACTION

1. The examiner acknowledges the receipt of the amendment and terminal disclaimer filed June 23, 2009, claims 3, 9 have been cancelled. Claims 1, 2, 4-8, 10-14 are pending.
2. In view of the terminal disclaimer filed June 23, 2009, the rejection of claims 1, 2, 4-8, 10-14 on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-38 of U.S. Patent No. 6,271,325, is withdrawn.
3. In view of the amendment filed June 23, 2009, the rejection of claims 1, 2, 4-8, 10-14 under 35 U.S.C. 102(e) as being anticipated by McConville et al. (US 6,271,325), is withdrawn since McConville et al. fail to teach the leaving group as claimed.

Oath/Declaration

The reissue oath/declaration filed with this application is defective because it fails to contain a statement that all errors which are being corrected in the reissue application up to the time of filing of the oath/declaration arose without any deceptive intention on the part of the applicant. See 37 CFR 1.175 and MPEP § 1414.

Because Applicant has made numerous amendments to the claims since the filing of the previous declaration, a statement that all errors corrected in this reissue arose without deceptive intent is required.

An example of acceptable language is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by the prior declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

The reissue oath/declaration filed with this application is defective because the error which is relied upon to support the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414.

The error statement merely states that the error lies in the fact that claim 1 is anticipated by a JP reference. The fact that applicants proceed to state where in the reference they believe the claim to be anticipated is irrelevant. Applicant needs to focus on their own claim and not on what the JP reference teaches. The error statement provided is directed more to "how" the error was discovered and not what the error actually is. MPEP Section 1414 states in part:

The "at least one error " which is relied upon to support the reissue application must be set forth in the oath /declaration. It is not necessary, however, to point out how (or when) the error arose or occurred. Further, it is not necessary to point out how (or when) the error was discovered. All that is needed for the oath /declaration statement as to error is the identification of "at least one error " relied upon. **In identifying the error, it is sufficient that the reissue oath /declaration identify a single word, phrase, or expression in the specification or in an original claim, and how it renders the original patent wholly or partly inoperative or invalid. The**

corresponding corrective action which has been taken to correct the original patent need not be identified in the oath /declaration (emphasis added).

Any error in the claims must be identified by reference to the specific claim(s) **and the specific claim language wherein lies the error.** (emphasis added)

In this case, applicant has not provided any specific limitations that needed to be present in patented claim 1. The mention of the JP reference is irrelevant to the requirement under 35 USC 251. An example of an acceptable error statement would include language stating "claim 1 failed to include a limitation X".

Claims 1, 2, 4-8, 10-14 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.
